MINI MARKETING DEPARTMENT MINI DEALER BULLETIN TIME TO ORDER YOUR JOHN COOPER WORKS CARS!

In your face! Boom-chicka!

JOHN COOPER WORKS ORDERING GUIDES & PRICE LISTS RELEASED

We are proud to announce official pricing information for the 2009 John Cooper Works models. Both the John Cooper Works Hardtop and John Cooper Works Clubman will start production in June 2008 and will go on sale on July 14th, 2008. These cars are dedicated models with their own model codes. Unlike the previous generation GP which had a fixed color and option list, you can order each new John Cooper Works car with most of the options and packages that you already are familiar with on other MINI vehicles. Since these cars are the first of our '09s, they will also be the first to feature our new packages for model year '09. It is a preview of things to come for the rest of the lineup this fall. Check out the enclosed ordering guide and price sheets for more info.

NEW PACKAGES FOR 2009

It is my commitment to make sure that what the customers are saying in the showrooms gets heard here in the MINI USA executive boardrooms. When you spoke at the Sales Manager Meeting in Vegas earlier this year, we listened. And based on your feedback, we've put together a new set of core packages that will make your customers happy. Because there are a few changes in standard equipment for the John Cooper Works models (i.e. DSC and DTC will be standard) we had to move some things around. Also, we took 6NE out of Convenience and put the Multi-Function wheel in Premium. In essence, this is how it goes:

Sport Package – Not available on John Cooper Works models.

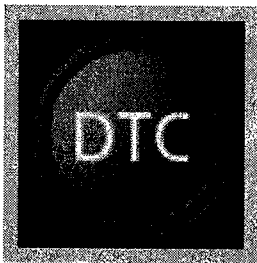

Premium Package - \$1,250 (was \$1,500) We took out the MINI hi-fi stereo (6FD) and added the ever-popular 249 Multi-Function Leather steering wheel. The \$250 savings in content goes right into the customer's wallet.

Carfather says: "I've got a package for ya."

Convenience Package - \$1,250 (was \$1,500) We removed 6NE Comfort Bluetooth which took with it the 249 Multi-Function Wheel and 473 Center Armrest. In 6NE's place, we've put the more popular 6ND Bluetooth and USB/iPod option because it adds true convenience and doesn't force you to take the center armrest if it's not to your liking (they tell us a new armrest won't happen for sometime.)

Cold Weather Package - \$500 (same price) We were able to maintain this package's price for '09. This is one of the best values in the motoring world as you get the heated front seats, washer nozzles, outside mirrors and Powerfold mirrors all at once. You'd pay \$1,000 for these items separately, so this is one heck of a bargain!

YO VINNIE, HOW DOES DTC WORK? WHAT ABOUT EDLC?

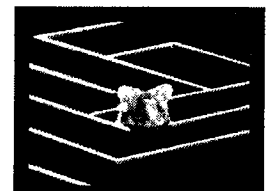

DTC debuts on the 2009 John Cooper Works models. All other 2009 MINI vehicles will have DTC available as a stand alone option for \$500 or as part of a new Sport Package starting with September 2008 production. The DTC button will sit right where the DSC button is currently located.

DTC (Dynamic Traction Control) – You've seen it in some of the products that those BMW guys have been selling across the way, so yes, this is essentially the same technology that you may have already heard of. DTC falls in between DSC On and DSC Off as far as saving your butt in a turn is concerned. DSC stops you in your tracks at the slightest hint of tomfoolery. DTC, on the other hand, will let you get into a slide and allow you to spin the wheels before it intervenes. This allows for sportier driving but will still save you if things turn ugly in a turn. To activate it, just press and release the button once. From a foul weather perspective, it also gets you going in snowy or muddy conditions.

EDLC (Electronic Differential Lock Control) - This is part of DTC. In essence, it uses the front wheel brakes to limit wheel spin while accelerating. In the past, if you took a sharp turn in first gear with DSC off and you nailed the gas, a Cooper S without a limited slip differential would typically incinerate the inside tire and send clouds of tire smoke billowing past your side window. With EDLC, you can nail the gas and there will be hardly any wheelspin, allowing you to power out of turns quicker and get faster exit speeds. EDLC is activated by holding the DTC button down for about three seconds. This will turn off both DSC and DTC completely, which is fitting for John Cooper Works drivers. Whereas the mechanical limited slip option used to manage torque split up to 30%, EDLC splits it more evenly to 50%. And in case you were wondering, option 2TA is not available on the John Cooper Works models.

WHAT'S NEW FOR '09 JOHN COOPER WORKS MODELS?

In the ordering guide, you've probably seen a few items missing and some other new items coming on board at a later date. Let's go over each item to help clarify.

Life is full of options.

Only two Interior surfaces for instrument panel? – Yes, it is true. On John Cooper Works models, Piano Black is standard and Fluid Silver is the only option.

Rear roof spoiler and roof rails on Clubman in September – The rear roof spoiler adds the perfect sporting touch to the John Cooper Works Clubman and will come in roof color. Also available will be roof rails but they will come only in black and can hold up to 177 pounds of cargo. These two cannot be combined, so your customer will have to choose one or the other.

6NF – Smartphone Prep – This new option is coming in September '08 for the John Cooper Works cars. It will connect a smartphone (i.e. Apple iPhone) using the phone's digital USB port for connection, instead of an analog connection like that we currently have with 6NE Comfort Bluetooth. This provides quicker response time and offers clearer sound when playing MP3s. One thing to keep in mind is that 6NE is required when ordering 6NF. The customer will have to buy a snap-in adapter for their phone from the MINI Accessories Catalog upon delivery.

Yellow Colorline and Gotham Gray Interior – Not available on John Cooper Works models.

John Cooper Works Clubman Cloth/Leather Change – Pacific Blue upholstery will end production this August and will be replaced by Ray Cream, which comes on line in September. Ray Cream cannot be ordered with Tuscan Beige or Hot Chocolate interiors. The materials and price stay the same.

No Wood Steering Wheel – Option 254 will not be available on John Cooper Works models.

Sirius Satellite now \$500 – To help spread the gospel that is Sirius Satellite Radio, John Cooper Works customers can take advantage of our new pricing of \$500. It will come with a one-year subscription to get more music in more places beyond terrestrial radio (not available in Hawaii or Alaska.)
