

R56 CBS SERVICE ITEMS OVERVIEW

Service Items	Basis For Determining Interval	Nominal Interval Between Services	“Yellow” Interval Before Service Is Due (displayed in the Vehicle Control Display)	Service Interval Tolerance (service can be performed within this range before being due)
Engine Oil	Adaptive based on Fuel Consumption and Oil Quality Sensor	15,000 miles	1,250 miles	2,000 miles
Front Brakes	Adaptive based on 2 brake lining wear sensors and residual wear algorithm	31,000 miles	1,250 miles	4,000 miles
Rear Brakes	Adaptive based on 2 brake lining wear sensors and residual wear algorithm	31,000 miles	1,250 miles	4,000 miles
AC Microfilter	Adaptive	15,000 miles	1,250 miles	4,000 miles
Brake Fluid	Time based	24 months	1 month	4 months
Vehicle Check	Distance based	30,000 miles	1,250 miles	2,000 miles
Spark Plugs*	Distance based	100,000 miles (Cooper) 60,000 miles (Cooper S) 30,000 miles (with JCW kit)	1,250 miles	4,000 miles
Automatic Transmission Fluid*	Distance based	100,000 miles	1,250 miles	4,000 miles
Oxygen Sensor*	Distance based	120,000 miles	1,250 miles	4,000 miles
Emissions Inspection	Time based on State Regulations	Dealer Programmable		
Safety Inspection	Time based on State Regulations	Dealer Programmable		

Notes all models:

- * “Automatic Transmission Fluid”, “Oxygen Sensor”, “Coolant” and Spark Plugs are not shown in the Tachometer Display or in the Central Information Display. For coolant, please see key reader for remaining life.
- Service can be performed for any of the above Service Items which fall within the Service Interval Tolerance.
- Maintenance Program only covers Service Items which have values within the above Service Interval Tolerance (denoted as either “Recommended” or “Due” by SAM).
